**New releases from the multi-award
winning coastal artist.**

In these two enchanting limited editions, we see some of Rebecca's favourite characters enjoying life (and breakfast) in a room with a view.

The classic coastal outlook features a whole array of Rebecca's favourite elements – birds and boats, cats and cafes, all playing their part in the busy world of the English fishing village.

Each piece features that irresistible combination of quirky humour and technical panache which has made Rebecca one of our most highly sought-after and collectable artists.

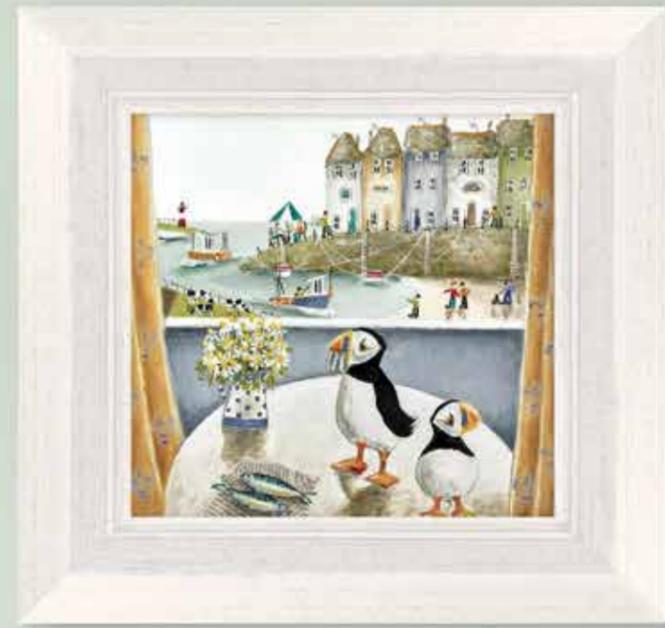

Rebecca's quintessentially British style originates in her Dorset upbringing and her love of the distinctive Jurassic coastline has been the mainstay of her success.
