Yuvi

yuvi

Born in Tel Aviv - 'the other city that never sleeps' - in the 1970s, Yuvi spent much of his early life in a hipster neighbourhood known as Florentine which is now the heart of the city's graffiti scene. He grew up surrounded by graffiti, music, politics and the social agenda of a city with a hugely cosmopolitan character. All these influences combined to ignite his imagination and direct his creative and tempestuous personality into highly expressive and vibrant artistic statements.

Yuvi's latest collection is a dazzling pair of limited edition metalworks which showcase his gifts for colour and communication, humour and heart. Each laser cut piece is mounted on board and framed, introducing an unexpected touch of formality to the presentation.

The animation and vibrancy in each of his works takes us straight back to the streets which inspired them, and has won him exhibitions and admirers in places as diverse as New York and New Delhi.
