# Yuvi

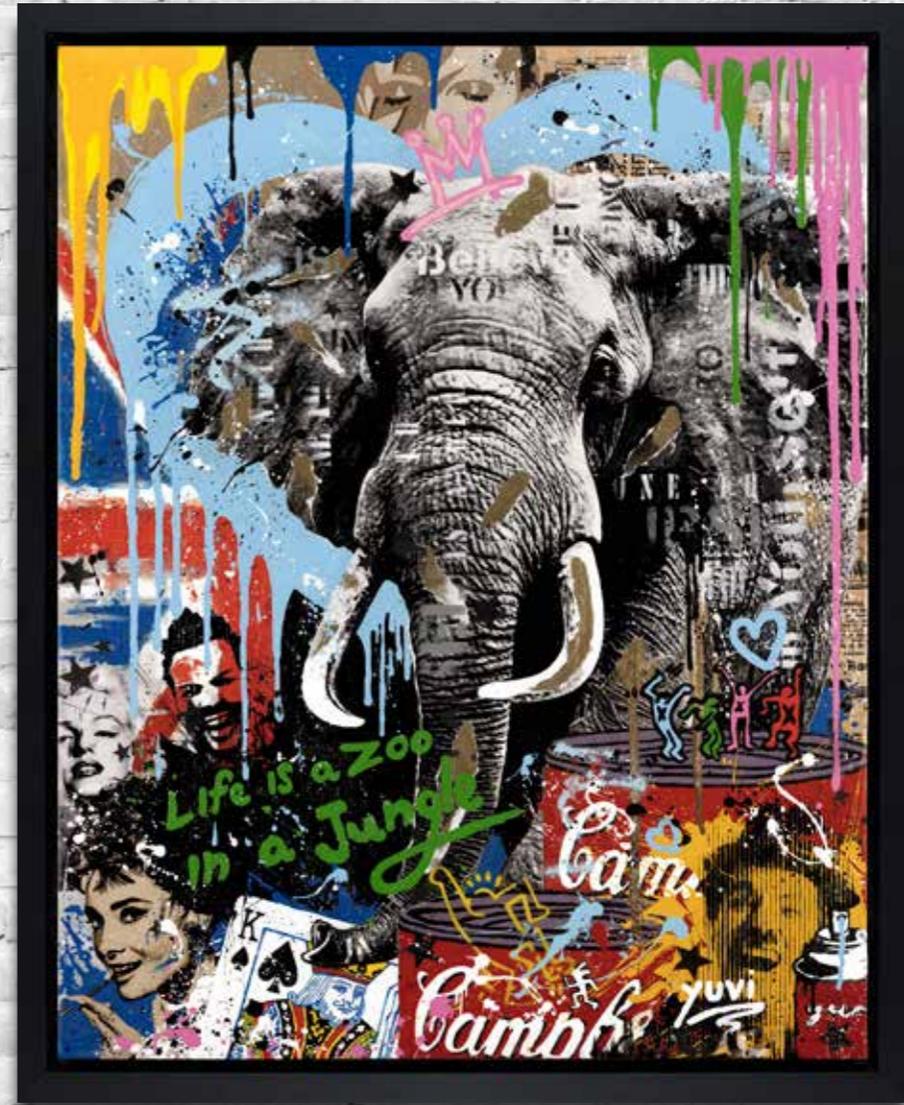

*"Highly expressive artistic statements that speak to the heart of society in a language which is both personal and accessible."*

Yuvi's 'urban pop art' expresses his alternative world view through humour and defiance, exploring issues which he cares passionately about, from social criticism to iconic homage - a unique combination of colour and communication, humour and heart.

**Yuvi**

The word "Yuvi" is rendered in a bold, white, sans-serif font. A thick, white brushstroke underline is positioned beneath the letters, starting from the left and extending past the end of the word. From the left side of this underline, several thin, white vertical lines drip downwards, creating a paint-splatter effect.
